

RINSE AID LN102

Machine Dishwasher Rinse Water Additive

RINSE AID LN102 is a concentrated machine dishwashing additive. It combines concentrated surfactants with special drying agents to reduce drying time and eliminate spotting on dishes, cutlery and glassware.

RINSE AID LN102 is recommended for use in establishments which require quick turn around of tableware and excellent results.

RINSE AID LN102 is DESIGNED:

- to eliminate spotting and streaking on dishes, cutlery and glassware
- dramatically decrease drying time
- to maintain its high-performance characteristics when used with hard water
- to be corrosion safe on all materials
- to be low foaming thereby maximizing rinse jet efficiency and not interfering with machine performance
- to be economical in use – highly effective even at low concentrations (0.05%)
- to contain only biodegradable surfactants.
- to be designed for automatic dispensing by automatic feeder dispensing systems, allowing the use of **RINSE AID LN102** with maximum efficiency and economy

CHEMICAL AND PHYSICAL PROPERTIES

Appearance:	Moderately viscous, orange liquid
Flash Point:	Non-flammable
pH (1% solution):	6 - 8
Odour:	Slight solvent
Foam Characteristics:	Low

DIRECTIONS FOR USE

RINSE AID LN102 recommended be used in conjunction with one of the Advance Chemicals machine dishwashing detergents (**SABRE LC77** or **HI LIFT LC1226**)

RINSE AID LN102 is added to the dishwasher by the automatic feeding dispenser during the rinse stage of the washing cycle.

Use 1 part to 100 parts of rinse water.
