

LONG LIFE LN606

Water-based floor polish for vinyl, lino, rubber and wooden floors

LONG LIFE LN606 is a high-solids, long wearing floor polish based on acrylic / styrene copolymers with metal cross linking. Because the film is very hard, it is recommended to use with high speed buffing at 500rpm using a buffing pad.

RECOMMENDED USAGE RATE

1 Litre per 40 square metres

DIRECTIONS FOR USE:

- Clean the floor thoroughly.
- Apply 1 or 2 coats of **LONG LIFE LN606** with a lambswool polish applicator or damp mop.
- Allow 30 minutes drying time between coats.

For good film formation without powdering the room temperature should be above 12°C.
