

FABRIC SOFTENER LN74

A gentle fabric softener for all textiles

FABRIC SOFTENER LN74 is a gentle fabric softener which restores freshness and softness to all kinds of clothes.

FABRIC SOFTENER LN74 also eliminates static cling and makes ironing easier.

FABRIC SOFTENER LN74 contains a fresh perfume and an optical brightener.

DIRECTIONS:

Small Wash:

Never pour undiluted onto clothes. Premix with water first (50:50) before adding to the deep rinse cycle. Do not mix with bleach or other products. Do not add to discoloured water.

Machine Wash: Add 60 ml of Fabric Softener to the final rinse water.

Hand Washing: Add 30 ml to the final rinse per basin of water.

Large Wash:

FABRIC SOFTENER LN74 should be used in the final rinse of the wash program. Premix with water (50:50) is recommended before using, as product is thick.

Optimum results are obtained if the rinse temperature is above 30°C.

The addition rates below are typical useage rates based on the dry weight of fabric washed.
