

PALMS LN770

Liquid Hand Soap - Type A

PALMS LN770 is a lotionised hand cleaner designed specifically for use within the food and allied industries.

PALMS LN770 's powerful cleaning action will remove soils normally encountered in the food industry while its near neutral pH and carefully selected skin conditioners leave hands feeling soft and supple. This factor is of particular importance when rigorous and frequent washing is demanded by stringent hygiene and quality control programs.

PALMS LN770 has been DESIGNED:

- to rapidly penetrate, dissolve and remove all soils usually encountered in the food and allied industries.
- to leave hands feeling soft and supple, thereby making hand washing a pleasant experience for the user.
- to be economical in use - **PALMS LN770** is a viscous liquid meaning controlled delivery from dispensers. **PALMS LN770** is viscous due of quantity of active ingredients, not due to thickeners.
- to rinse freely from cleaned hands leaving them tack-free after drying.
- to be readily biodegradable, non-hazardous and non-toxic.

CHEMICAL AND PHYSICAL PROPERTIES

Appearance:	Green viscous liquid
