

RUST PREVENTITIVE M81B

RUST PREVENTITIVE M81B is a water based corrosion preventative safe for both ferrous and non-ferrous metals.

RUST PREVENTITIVE M81B is water soluble which means that in process costs of washing mineral oil based rust preventative off prior to painting are eliminated.

RUST PREVENTITIVE M81B will give short term rust prevention of about 4 weeks under normal indoor storage.

RUST PREVENTITIVE M81B is free of mineral oil, mercurials, PCBS, PTTBA, and nitrites and nitrates making the product safe for both workers and the environment.

FEATURES:

- Concentrated product which provides good economies of scale.
- Contains no nitrites or nitrates.
- Compatible with both hard and soft water.
- Pleasant to use. No oily mist or smoke; no slippery film on parts, machines, or floors.
- Excellent corrosion control.
- Safe for non-ferrous metals.
