

RINSEMASTER LN1563

Machine Dishwasher Rinse Water Additive

RINSEMASTER LN1563 is a concentrated machine dishwashing additive.

RINSEMASTER LN1563 combines concentrated surfactants with special drying agents to reduce drying time and eliminate spotting on dishes, cutlery and glassware.

RINSEMASTER LN1563 is recommended for use in establishments which require quick turn around of tableware and excellent results.

RINSEMASTER LN1563 is DESIGNED:

1. to eliminate spotting and streaking on dishes, cutlery and glassware
2. to dramatically decrease drying time
3. to maintain its high performance characteristics when used with hard water
4. to be corrosion safe on all materials
5. to be low foaming thereby maximizing rinse jet efficiency and not interfering with machine performance
6. to be economical in use - **RINSEMASTER LN1563's** concentrated formulation means that it is highly effective even at low concentrations (0.05%)
7. to contain only biodegradable surfactants.

CHEMICAL AND PHYSICAL PROPERTIES

Appearance:	Thin orange liquid
Flash Point:	Non-flammable
pH (1% solution):	6 - 8
Odour:	Slight solvent
Foam Characteristics:	Low

DIRECTIONS FOR USE

RINSEMASTER LN1563 should be used in conjunction with **DISHMASTER LC1562**

RINSEMASTER LN1563 is added to the dishwasher by the Advance Automatic Feeder during the rinse stage of the washing cycle.

Advance can supply, install and maintain the most appropriate dosing equipment for the machine on which **RINSEMASTER LN1563** is to be used.
