

BROWN OFF LA277

Stain Remover for Carpets

BROWN OFF LA 277 removes brown stains from carpets caused by over wetting of the carpet during cleaning or flooding. This causes stain from the hessian backing to dissolve in water and the stain wicks to the tips of the carpet fibres. Will remove tea and coffee stains as well.

CHEMICAL AND PHYSICAL PROPERTIES

Appearance:	Clear colourless liquid
Odour:	Vinegar
pH:	2 - 3

DIRECTIONS FOR USE

Apply **BROWN OFF LA 277** to the dry carpet by rubbing on with a rag or spraying onto the brown stains and then leave for 1 minute. For small stains rub off with a clean, dry rag. Do not wet the backing of the carpet.

For larger areas rub partly dry and then cover with dry towels, pressing the towels down firmly on the carpet. Any remaining brown stain will wick into the overlying towel.

BROWN OFF will not prevent brown stains from occurring when a carpet has been flooded and is still wet.
