

# ADOXY LA844S

## (Hydrogen Peroxide 35%) Oxygen Bleach and Sanitiser

**Adoxy LN844S** is a powerful oxygen bleach and sanitiser.

**Adoxy LN844S** solutions are colourless, free rinsing and non staining and are almost odourless at use concentrations.

**Adoxy LN844S** decomposes to form water and oxygen so it presents no problems with disposal after use. It is used in laundry applications to wash coloured fabric and to prevent yellowing of white woollen goods. **Adoxy LN844S** will kill bacteria in the wash.

### CHEMICAL AND PHYSICAL PROPERTIES

Appearance:	Clear, colourless, thin liquid
Flash Point:	Non-flammable
Odour: Concentrate:	Acrid odour
Odour: Use solutions:	Almost odourless
Specific Gravity:	1.13
pH (Concentrate):	1.0
pH (1% solution):	3.2

### METHOD OF USE

#### Use Concentrations:

Heavily soiled surfaces	1 - 2% v/v
Lightly soiled surfaces	0.2 % v/v
Final rinsing of surfaces	0.05% v/v
Sanitation of animal house drinking waters	0.05% v/v

### EFFECT ON MATERIALS OF CONSTRUCTION

**Adoxy LN844S** can be used to sanitise plants containing stainless steel, glass, polyethylene, PVC, PTFE(Teflon), Viton and fluorinated silicone rubbers. It should not be used with brass, copper and its alloys, nickel and its alloys, mild steel, aluminium, natural rubbers, nitrile rubbers, neoprene or ABS.
