

Q2 LB1728

Builder and chelating agent for use with ADOXY Q LA1727

ADOXY Q2 LB1728 boosts the cleaning performance of sanitizers by assisting in cleaning, suspending soil and softening hard water.

CHEMICAL AND PHYSICAL PROPERTIES

Appearance	:	Clear, colourless, thin liquid
Flash Point	:	Non-flammable
Odour Concentrate	:	Almost odourless
Specific Gravity	:	1.0
pH	:	11.0 – 14.0

METHOD OF USE

Prepare a use solution by mixing 1 part of **Adoxy Q LA1727** and 1 part of **Q2 LB1728** in 10 parts of water in a plastic container.

Thoroughly wet the surfaces with the use solution by wiping, brushing, immersing, spraying, mopping or using a C.I.P. pumping system.

Allow the surface to remain wet for at least 10 minutes.

Rinse all surfaces with potable water before use.

Prepare a fresh use solution daily or when needed such as once a week.
