

BARRIER CREAM CN55

BARRIER CREAM CN55 protects against oil, soil and water based irritants, protecting workers hands when a silicone free barrier cream is needed.

BARRIER CREAM CN55 is suitable for industrial, hospital, nursing home and home use.

BARRIER CREAM CN55 also moisturises, leaving skin smooth and soft.

BARRIER CREAM CN55 also helps protect against bed sores and irritant body fluids.

CHEMICAL AND PHYSICAL PROPERTIES

Appearance:	Thick white cream
Density:	0.98
Odour:	Slightly perfumed
pH (neat):	5 - 7

DIRECTIONS FOR USE

Wash the area of skin to be treated and dry thoroughly.

Spread **BARRIER CREAM CN55** evenly and massage into skin until it disappears.

For best results use several times per day.

WARNING

Do not apply to bleeding or weeping skin.

Avoid contact with eyes.
