**Eye Contact:** Immediately irrigate with copious quantities of water for several minutes. Hold eyelids open. In all cases of eye contamination it is a sensible precaution to seek medical advice.

**Ingestion:** If swallowed do NOT induce vomiting. Give a glass of water. Seek medical assistance.

**Notes to Doctor:** Treat according to symptoms.

## 5. FIRE FIGHTING MEASURES

**Specific Hazards:** Highly flammable liquid. May form flammable vapour mixtures with air. Vapour may travel a considerable distance to source of ignition and flash back. On burning will emit toxic fumes.

**Fire-fighting advice:** Wear breathing apparatus, full protective clothing, appropriate boots and chemically impervious protective gloves while attending hazard. Prevent the product and or extinguishing media from entering drains or waterways. Hoses should be electrically continuous and containers bonded to avoid static build up. Use water to cool fire exposed containers.

**Hazchem Code:** 3[Y]

**Flammability:** Flammable.

## 6. ACCIDENTAL RELEASE MEASURES

Shut off all sources of ignition. Slippery when spilt. Avoid accidents- clean up immediately. Wear appropriate protective equipment to prevent skin and eye contamination and breathing in vapour. Contain- prevent product from entering waterways. Soak up with suitable absorbent (sand, vermiculite) Collect in labelled containers for disposal. Advise Local authority if contamination of water ways occurs. Disposal of the spilled or waste material must be done in accordance with applicable local, state and federal regulations.

**Storage advice:** Store in a cool, well ventilated area away from heat and ignition sources. Store away from strong oxidising agents. Containers should always be kept closed in storage and properly labelled.

## 8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

**Occupational Exposure Limits:** No exposure limits for this product.

**Engineering Controls:** Use in a well ventilated area. Provide sufficient ventilation to control exposure levels below the exposure standards. Use local exhaust ventilation at sources of air contamination such as open process equipment. Keep away from sources of ignition. Take precautionary measures against static discharges. Dangerous concentrations may exist in areas with poor ventilation such as confined spaces. Protect against accidental release to waterways and drains. Keep containers closed when not in use.
