

FORMULA 50 LB1524

Heavy Duty Degreaser & Universal Detergent

FORMULA 50 LB1524 is a heavy duty, all-purpose cleaner and degreaser. It contains quick break surfactants which lifts oil, grease and other hydrocarbon soils from the cleaning surface without forming a permanent emulsion. This allows oils to float to the surface where they can be skimmed off and the clear water to be discharged safely.

FORMULA 50 is DESIGNED:

- to rapidly wet, penetrate and emulsify grease and oils, commonly found in engineering, automotive and manufacturing premises
- to be safe for use on all hard inert surfaces at recommended dilutions
- to maintain its high performance characteristics when used with hard water
- to be low foaming so as not interfere with floor scrubber operation and to maximise the effect of high pressure water jets
- to emulsify dislodged grease and oil, thereby increasing the efficiency of subsequent rinsing operations
- to contain only biodegradable surfactants.

CHEMICAL AND PHYSICAL PROPERTIES

Appearance:	Fluoro green liquid
Flash Point:	Non-flammable
pH (1% solution)	9 - 10
Odour:	Low
Foam Characteristics:	Low
Specific Gravity:	1.1

DIRECTION FOR USE:

Depending on the application, Formula 50 may be diluted with water from 1:1 to 1:50.
